Ph. +90 (533) 731 2815

Full Time Professor
Vice Director

Akdeniz University, Department of Economics, Türkiye
Local Products and Geographical Indications Research Network
in Turkey

Selim has been conducting research and consulting in national and international research projects for nearly 30 years. His main skill is applied policy analysis, quantitative modelling and impact assessment. His research interests can be broadly defined in the framework of agri-food industry and sustainable development. He is skilled in developing methodologies and identifying relevant literature for research foci, as well as developing work plans and schedules for research teams. He has carried out research for FAO, FEMISE, OECD, AERU-NZ, EU and various Ministries in Turkey.

Key areas of expertise

- Economics of agri-food industry in micro- and macroeconomics context
- Migration
- Poverty
- Circular economy
- Sustainable development

Quantitative skills

- Panel and time series econometrics
- Input-output matrix analyses (demand and supply-side; hypothetical extraction)
- Social accounting matrix analyses (developing the matrix and various multiplier analyses)
- Factor analysis
- Developing composite indices
