12 yanıt

What are your thoughts about the Erasmus Team? (1-5: 1=poor/negative, 5=excellent)

12 yanıt

What are your thoughts about the timing of the Erasmus Orientation Meeting?

12 yanıt

Please share your thoughts on your Erasmus mobility in general (pros and cons)

- Erasmus mobility was one of the best thing in my life. I will remember always for every precious moments spent in Antalya with Erasmus group. Without doubt: Erasmus changed my life because I knew many open minded people from different countries, we shared happy moments and conversations together which helped me a lot to understand better the meaning of life: helping, growing together, sharing and enjoying every moment.
- It's a unic oppportunity, an experience that helps you both on professional and personal level. I couldn't find any cons against this mobility.
- I had concerns before coming here for erasmus because there were some uncertainties(accomodation for example), but at the end everything worked out. The education (dentistry faculty) is at a high level, teachers are very kind and helpful. The practical education is the best, the theoretical part is a bit less good, but still okay. Türkiye is an amazing country full of breathtaking nature spots. The ESN group's work is very good, I am thankful that they organised so much programs and activities for us. The only advice I would give is related to accomodation. I think it would be really useful if 2 month before starting erasmus, students would recieve some information like the average monthly rent prices, which neighborhoods are recommended, reliable agents phonenumber. Other than this, I had a really good experience with my Erasmus mobility!
- Only positive thoughts!

- My only con is that nobody in the Students Affairs speaks English
- Our Erasmus coordinator Ayse is a wonderful person but the organisation at the University is a disaster. The support is very bad and you feel left behind. Any help for needed documents or processes is not available.
- Everything was great except the residence permit should have been done sooner.
- Turkey will always remain in my heart. It was the best experience ever. Thank you and I am grateful for everything!
- Everything was very good except the permit residence process. It was a bit hard to wait so much for the documents, even if we did them on time.
- It was great!
- It was a good experience over all everyone was very helpfull. The residence permit took too long and it was a hard process. I think it whould have good if the papers would have been send earlier.. to be sent on 2 groups. Because I sign them very early but i had to wait for the others who didn't sign
