## ERASMUS+ PROGRAMME

The Coronavirus COVID-19 pandemic, which has affected countries all over the world, has also affected the student and staff mobility of Akdeniz University under the terms of the Erasmus + programme. Within the scope of Erasmus mobility, some of our students who went abroad for education and internship have returned to Turkey. Our students, who did not return to their country, completed their education and internship mobility at the institutions they went to. During the COVID-19 pandemic, necessary information has been provided to our students by staying in contact with our students abroad. Our Erasmus students are provided to continue their education online as well.

In line with the pandemic measures, as Erasmus Office we have participated in the webinars organized by the Turkish National Agency for the implementation of the Erasmus + programme properly.

## ERASMUS+ #STAYHOME# EVENTS

Staff members responsible for the Erasmus+ Programme of the International Relations Office and the Erasmus Student Network (ESN Akdeniz) team stay in touch with the students who came to our university for learning and internship from Europe and who could not return to their countries due to the COVID-19 pandemic. Staying connected through social media has provided our students to have a fruitful time.
