## OUR MISSION STATEMENT.

*The concept of globalization will no doubt affect young professionals and current university students all around the world the most. A great number of these young professionals are finding themselves in the middle multi-cultural environments trying to practice and develop their professional skills. Future leaders will rise from such international environments by developing the necessary skills, to enable them to focus their attention on the opportunities and the challenges of these multi-cultural environments rather than the difficulties and obstacles. -*

*USEH designs and executes international programs in coordination with its global partners who are geared to help young professionals and university students to obtain high quality international experiences. To develop these critical skills USEH developed an international network of companies and organizations in order to provide students different programs in Europe, USA, Canada, New Zealand, Australia. We aim to expose students and young professionals to multi-cultural environments as soon as possible in their careers and work with governments and organizations to open the doors for people to achieve their goals.*

**YOUR CAREER  
COMPASS since 1999..**
