

## LUNCH WITH YOUR PROFESSOR #2

On March 6, 2026, Professor Dr. Arda Arıkan had “a luncheon” with five students who invited him. The professor said the event was very enjoyable and informative, especially when the main topic was a passionate discussion about learning foreign languages. The most important question was which language to learn. Spanish and Chinese were the ones they chose.

The menu included vitamin soup, pasta, chicken, and pudding. Some students, as the case was seriously discussed with the suspects (victims) at the crime scene, chose not to eat this healthy and tasty menu!

Bade Janset Gönül, Berfin Güdüğü, Çetin Can Şanlı, İpek Yaşar, and Yusuf Bayoğlu asked their youthful professor various questions about his childhood, youth, and, unfortunately, aging, as well as his views on the students’ probable (and future) career paths.

As the professor further reported, no juicy gossip was uttered mainly because these were the youngest cohort of students in the department.

The professor thanks Bade, Berfin, Çetin Can, İpek, and Yusuf for making this day unforgettable. One note: finish the food on your plates, or else!
